**Re: CWMP Multi-Purpose Building
Ice Rink Design Builder
The Woodlands, Texas**

Dear Kyle,

On behalf of the Cynthia Woods Mitchell Pavilion and Mission Constructors, please accept this letter as our sincere thanks for the exceptional work your company performed as the Ice Rink Design Builder for the CWMP Multi-Purpose Building.

The Cynthia Woods Mitchell Pavilion was established over 20 years ago when George and Cynthia Mitchell decided to give back to The Woodlands Texas, a master planned development the Mitchells built with the dedication to preserve the natural beauty of the area. The Mitchells only allowed high quality projects to take place in their development and your dedication and work on the Ice Rink couldn't have matched their dream any better.

We had concerns over the Ice Rink portion of the project, since this isn't a common construction item in the Texas Gulf Coast area, and I knew as soon as speaking with you the first time that we no longer had a need to be concerned. We couldn't have selected a better company and the result met all of our high quality expectations.

Without any reservations whatsoever, I would recommend Rink-Tec to anyone considering an ice rink.

Sincerely,

Fred Grona
Senior Vice President
